Endurance International Group

RE: Software Engineer Intern

Dear Hiring Manager,

I was excited to learn of Endurance International Group 's open Software Engineer Intern position. Currently, I'm a student, working toward my degree and looking for ways to put my new knowledge and skills to use in a work environment.

I am a dedicated, hard worker skilled in problem-solving and time management. I work well with others, but I can also take initiative and get things done on my own. I catch on quickly and work hard to continuously expand my skill set. Just a few of my abilities include:

- Programming
- Software Testing
- Software Development

I am certain that I will be a great addition to your company.

If you could give me a call, that would be great. I'm really interested in working for Endurance International Group, and I hope you'll consider me for the position.

Sincerely,
Wanjing Han
